React.js, TailwindCSS, JavaScript

Blend&Joy 5 March 2024 - Present  
https://blend-joy.vercel.app/

Website created with Pure CSS To improve my CSS skills and create components by my own , I created Add & Remove function with the help of Redux.js/Toolkit for react . And pagination by Router-Dom. Its Fully responsive for Mobile ,tab and laptop .This project is a revision for all the tech stack I learn till now and will be updated .  
Redux/Toolkit, React.js, CSS, Router-Dom, JavaScript
